

June 21, 2017

Inspection Number: 051617-18590-01

Mr. Vinay Patel
President
Enviro Science Technologies Inc.
15785 S. Keeler Terr.
Olathe, Kansas 66062

Original

Dear Mr. Patel:

On May 16, 2017 and May 25, 2017, representatives of the U.S. Environmental Protection Agency inspected your facility under the authority of Section 9 of the Federal Insecticide, Fungicide, and Rodenticide Act. The EPA will review the report of inspection to determine your facility's compliance with the Act and its implementing regulations, and reserves all rights it may have to take appropriate enforcement action if it is determined that violations were documented.

A copy of the report is enclosed for your information (without attachments). If there are any questions regarding this report or actions that you may want to take, please contact me at the above letterhead address, by phone at (913)551-7054, or by email at lesher.mark@epa.gov.

Your company may be classified as a small business. Therefore, we encourage you to visit EPA's website for access to an Information Sheet titled "U.S. EPA Small Business Resources" located at: <https://www.epa.gov/compliance/small-business-resources-information-sheet>. This document provides information regarding rights you may have under the Small Business Regulatory Enforcement Fairness Act and identifies contacts for assistance with small business issues. A paper copy is available upon request.

Sincerely,

Mark K. Leshner
FIFRA Enforcement Officer
Toxics and Pesticides Branch
